

Schlumberger Foundation – Faculty for the Future

Eligibility Criteria for Grants

To be eligible to apply for this fellowship applicants must meet the following criteria:

You:

- are a female and are a citizen of a developing or emerging country*;
- are preparing for PhD, or postdoctoral study in the physical sciences, engineering and related disciplines;
- are enrolled, admitted or have applied to a host university abroad (applications are no longer accepted where an individual has not yet applied to a university);
- have a proven track record of teaching experience;
- can demonstrate active participation in faculty life and outreach programs to encourage young women into the sciences;
- hold an excellent academic record.

If you do not meet the above criteria, please DO NOT apply for a grant, as your application will not be retained in the selection process.

*Faculty for the Future focuses on developing and emerging economies. Qualifying a country as advanced, developing or emerging is a complex, and often controversial, topic.

Faculty for the Future does not draw on one single source or list but constitutes its eligible country list from a number of sources which allow incorporation of development status with regard to science, gender and education for example.

The most significant source drawn upon is the multi-variable UN HDI including their Gender Development and Gender Empowerment Indexes as well as indicators of adult educational levels.

The Faculty for the Future country list is reviewed every year and levels of development fluctuate, so a country may be on the list this year and not on the list next year, or vice versa.
